#WeBelieveInAstronauts | #NationalAstronautDay | #LearnCreateExplore www.NationalAstronautDay.com Wednesday, April 25th, 2018: Today, to launch day ten of the countdown, **uniphi space agency**, a division of **uniphi good LLC**, is proud to announce programming, events and additional information about the third annual *National Astronaut Day*, featuring Astronaut inspired STEAM and Space related activities, events and partners, to take place on, and around, Saturday, May 5th, 2018.

In keeping with the tradition of other Astronaut and Space related celebrations, May 5th was selected for this significant date in history in 1961 when Astronaut Alan Bartlett Shepard Jr. became the First American in Space, aboard the *Freedom* 7 Space capsule. The brief suborbital flight, which lasted approximately 15 minutes and reached a height of 116 miles into the atmosphere, was a milestone achievement. This trailblazing example of heroic bravery and adventurous spirit is this essence of what **National Astronaut Day** is all about.

In addition to the previously released 2018 **National Astronaut Day** campaign overview, additional details and information about ways to celebrate and participate are being announced including:

Challenge:

The #NationalAstronautDay #Challenge will recruit Astronaut and Space fans to participate on social media. In addition to sharing their own personal stories of inspiration and motivation, Astronauts will join in and may even tag YOU to join the crew! The Mission is to help inspire the next gen of adventurers to Learn, Create & Explore, and to support RIF's efforts to ensure that all children have the opportunity to own books, learn how to read, and have access to the fundamental building blocks to achieve their highest potential.

Posts tagged with #NationalAstronautDay #Challenge, may be re-shared by Astronauts and "official" National Astronaut Day accounts on social media. Information on how to participate may be found at www.NationalAstronautDay.com.

About uniphi space agency:

uniphi space agencyTM, a division of uniphi good LLCTM, is honored to be the exclusive management agency for a diverse range of former Astronauts. Their stories and experiences lend to some of the world's most compelling book projects, speaking engagements, and collaborations. Subjects include STEM/STEAM topics, innovation, motivation, technology, perseverance, education, engineering, safety, adventure, risk, strategy, "anything is possible," and lessons from space as related to here on Earth. There are infinite possibilities for everyone to follow their dreams!

Our goal is to help celebrate and share the stories and experiences of our Astronaut clients by differentiating between each individual's specific experience and point of view, aligned with key strategic opportunities, to help motivate and inspire future generations of Astronauts to come. #WeBelieveInAstronauts | www.uniphispaceagency.com
